

TANK MONITORING SERVICE

MAINTAINING PROPER TANK LEVELS JUST GOT EASIER!

ACCESS YOUR TANK DATA FROM ANYWHERE

Customers can access tank data through a secure, password-protected website that can be accessed from virtually anywhere. You can view tank level information, product usage, fill history, etc.

- Can view product in the tank and the amount of gallons you're using per day.
- Daily usage for the seven-day period and a 35-day period, for the more immediate and a longer-term view.

CONVENIENT, WORRY-FREE TANK MANAGEMENT

With Burke's Tank Monitoring, fuel level data from your tank is sent and monitored by the Dennis K. Burke staff to ensure your tanks have ample fuel to operate without interruption. With tank monitoring, Burke brings the right amount of product at the right time.

- You don't have to call for deliveries.
- You don't have to check gauges or stick the tank each day.
- You can go online to check the usage from anywhere.
- You get far more usage data than most tank equipment provides.
- Installed and maintained by our own factory-trained service technicians.
- Transmits data to the website, even during power outages.
- Veeder Root compatible.

LUBRICANTS & DIESEL EXHAUST FLUID TANK MONITORING

Dennis K. Burke offers tank monitoring service on fuel, lubricants, and DEF tanks. So no matter which products you use, chances are, we have a tank monitoring solution that meets your requirements!
